Commercial Grade Striplight S Series

Features

Functional and multi-purpose standard 2-light strip channel provides general illumination for indoor and damp applications. Product features include snap assembly of ends, socket bars and wire way cover and requires no tools. Fixture can be mounted individually or in continuous rows for surface or suspended mounting. Applications include light commercial, industrial, retail, coves and displays.

Construction

Heavy-duty channel is die-formed from 22-gauge steel. Channel cover snaps to housing for easy access to wire way. Electrical connections are made inside the wire way. Standard mounting holes and wiring knockouts are included.

Finish

Housing is finished in lighting grade white baked gloss enamel paint.

Diffuser

No diffuser for this fixture. Fluorescent lamps are exposed.

Electrical

120-277V universal-voltage ballast (MV).

Lamping

For use with T8 slimline linear lamps, not included.

Certification

All fixtures are cULus listed for damp location.

Warranty

Limited warranty: This fixture is free from defects in materials and workmanship for a period of 2 years from date of purchase.

Specifications and dimensions
subject to change without notice.
